## NHS Scoring Guidance

Recent guidance issued by NHS England has confirmed the move away from the 'Net Promoter' scoring methodology to a simpler 'Percentage Recommended' and 'Percentage Not Recommended' method.

The percentage measures are calculated as follows:

Recommended (%) = 
$$\frac{\text{very good} + \text{good}}{\text{very good} + \text{good} + \text{neither} + \text{poor} + \text{very poor} + \text{don't know}} \times 100$$

Not Recommended (%) = 
$$\frac{\text{very poor} + \text{poor}}{\text{very good} + \text{good} + \text{neither} + \text{poor} + \text{very poor} + \text{don't know}} \times 100$$

For further information about the selection of the scoring method please see the NHS FFT Review published in June 2014 here:

## Recommended

- ✓ I've never had a problem with the surgery appointments have always been on time and communication has been great
- ✓ *The checking in system is easy (although, I forgot to take note of which waiting room I needed) I asked the receptionist and she gave the WR info immediately. Then Debbie Fish is very friendly and makes you instantly comfortable and at ease. I was only a few mins late today, which made a nice change. So I was on my way within 17mins of my appointment time.*
- ✓ On time. Nurse was pleasant and efficient

Last time the same 10/ 15 min in a queue !!!
